

# Classification of Articles in the BBC Dataset into Sub Categories

Medini Rachapudi

TalentSprint

June 19th, 2019

# Description

- Aims to classify the articles in the BBC Dataset into sub categories

# Why This Project ?

- Good introduction to ML
- Learning as the project progresses

# Technology Used

- Python3
- Python libraries

# Work Plan

- Data Pre-Processing

# Work Plan

- Data Pre-Processing
- Feature Selection and Extraction

# Work Plan

- Data Pre-Processing
- Feature Selection and Extraction
- Implement the classification using one basic algorithm

# Work Plan

- Data Pre-Processing
- Feature Selection and Extraction
- Implement the classification using one basic algorithm
- Extend it for the internship by implementing other algorithm/s
